

# Rural Generalist Practice

*Ready today for tomorrow*

*“One of the ways we are improving rural practice in Queensland is by training in rural generalist practice. I am studying a Graduate Diploma in Rural Generalist Practice through JCU, which is allowing me to advance my clinical skills and develop leadership styles. One component of the program is to develop*

*“The program has been designed to meet the needs of rural and remote health services and was developed in collaboration with the Department of Health, Queensland and Queensland University of Technology. It can be difficult to access ongoing training and support when you work and live outside the major centres so*

# Postgraduate coursework applications

A University of Canberra Postgraduate Coursework Applications page is available on the University of Canberra website.

Review the application process and requirements for postgraduate coursework applications on the University of Canberra website.
