Majors

A Master of Education at JCU offers three majors. Choose a major in Educational Leadership, Educational Research or Career Development.

Develop advanced knowledge and understanding of ethical practices within educational leadership. Critically reflect on current issues facing the profession and understand the key aspects of both becoming a leader and developing capacity in others. Embrace the future of education by examining how best to combine teaching philosophies with the changing landscape of digital literacy. Become equipped to face local and global challenges in educational contexts. Hone your curriculum design and implementation skills to lead pedagogy

“The flexibility has allowed me to travel for short periods to take units intensively on campus, expanding the possibility of learning. I have found the university coordinators and lecturers professional in all interactions. In addition, helpful in providing assistance to complete assessments and flexible in planning the structure of my course to suit my needs. The university staff were consistently compassionate, understanding, professional and supportive of the holistic needs of their students. Engaging in these postgraduate studies will allow me to leverage my professional knowledge and understandings to greater build community awareness and action around sustainability.”

Katie Vander Donk

A CA

“The Master of Education is ideal for teachers and others working in the education sector wishing to upskill for career advancement. Whether you choose to study a major in Educational Leadership, Educational Research or Career Development, you will have the advanced knowledge and skills to lead in the 21st century.”

A JCU Master of Education prepares students to work across many roles and industry sectors. Postgraduates possess expertise in leadership, education, change, and communication, and the capacity to be a knowledge leader in a range of contemporary contexts.

Depending on the selected major and area of specialisation, a JCU Master of Education can lead to a career in:

- National and international schools
- Higher education and training
- Corporate learning and development
- Global education
- Humanitarian groups
- Community leadership and engagement
- National resource management
- Environmental interpretation
- Museums and heritage.

Postgraduate coursework applications

Apply directly to JCU, either by a form you download, complete and return, or by using the [Online Application Portal](#).

Your application must reach us before the deadline for your course.

Postgraduate courses will usually require completion of an appropriate undergraduate degree for entry. You'll need to include certified copies of qualifications and academic records with your application. For some programs, appropriate work experience or equivalent qualifications will be considered.

The entry requirements for each course are included on the Apply Now page for the course.
